Full Stack MERN Developer

Full Stack MERN Developer with 1+ years of experience building scalable web applications, REST APIs, and backend services using React.js, Node.js, Express.js, and MongoDB. Skilled in authentication, third-party API integrations, microservices architecture, and database optimization.

Professional Experience

Full Stack MERN Developer | Node.js Backend Developer

InstaPlex Solutions Pvt. Ltd., Pune

June 2024 – November 2025

- Developed and maintained 15+ RESTful APIs using Node.js and Express.js.
 - Contributed to microservices-based architecture for scalable and modular system design.
 - Designed and optimized MongoDB/Mongoose schemas and complex database queries.
 - Integrated AWS S3 for secure file storage and retrieval of static assets.
 - Implemented JWT-based authentication and role-based authorization.
 - Worked on third-party integrations including Zoho CRM API, WhatsApp API, Call API, Email, and SMS services.
 - Optimized MongoDB queries to improve API response performance.
-

Projects

1. Insta Partner — CRM Software for Vendors

MERN Stack, Zoho CRM API, Axios, Multer, JWT, bcrypt

- Developed CRM software for vendor and franchise management.
- Integrated Zoho CRM API for lead and deal tracking.
- Implemented JWT authentication and role-based authorization.
- Added promotion and training module with YouTube playlist and video upload support.

2. Insta Booking — Online Ticket Booking Platform

MERN Stack, Axios, Multer, JWT, bcrypt

- Built customer-facing and admin-facing booking management system.
- Implemented automated ticket delivery through WhatsApp, Email, and SMS.
- Added file upload and media management functionality.

3. Munim G — Accounting & Financial Management System

MERN Stack, Axios, JWT, bcrypt

- Developed accounting system for income, expense, and invoice management.
- Generated financial reports including Profit & Loss and Balance Sheet.
- Added secure authentication and encrypted data handling.
